## **Information Collection Requirement**

Title: Pipeline Corporate Security Review (PCSR).

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0056

Forms(s): Pipeline Corporate Security Review (PCSR) Protocol Form.

Affected Public: Hazardous Liquids and Natural Gas Pipeline Industry.

Abstract: Under the Aviation and Transportation Security Act (ATSA) and delegated authority from the Secretary of Homeland Security, TSA is tasked with developing policies, strategies and plans for dealing with transportation security. To carry out this responsibility regarding pipelines, TSA assesses current industry security practices through its Pipeline Corporate Security Review (PCSR) program. The PCSR is a voluntary, face-to-face visit with a pipeline operator during which TSA discusses an operator's corporate security planning and also completes the PCSR Form. The PCSR Form includes 218 questions concerning the operator's corporate level security planning, covering security topics such as physical security, vulnerability assessments, training, and emergency communications. TSA uses the information collected during the PCSR process to determine baseline security standards and areas of security weakness in the pipeline mode.

Number of Respondents: 2,200 potential respondents; likely 15 annual respondents.

Estimated Annual Burden Hours: An estimated 120 hours annually, based on TSA conducting 15 PCSR visits a year, each lasting 8 hours.

Dated: April 30, 2013.

Susan L. Perkins,  
TSA Paperwork Reduction Act Officer,  
Office of Information Technology.
